WESTCORT CREAM
(Brand Name)

Generic Name: Hydrocortisone

Purpose: This medicine is used to help relieve redness and swelling of your incision.

Usage: Do not use this medicine more often or for a longer time than directed. This may increase the chance of side effects. Do not use medication for any other non-prescribed use.

Possible Side Effects:

Check with Dr. Beeson if you experience any of the following side effects. Less common or rare effects include a lack of healing of the skin condition; raised dark red wart-like spots on skin; skin pain, redness, itching, or pus-containing blisters; or thinning of skin with easy bruising. If you notice other effects not listed above, contact Dr. Beeson.
